Anti-Alien Land
Bill Substitute
Held Ineffective

By The Associated Press
WASHINGTON, Jan. 4.—A congressional effort to end racial discrimination in this country would not be well, provide Thomas, democratic California, said today by the House committee of which he is a member, land ownership bill in California as a substitute for the anti-Asian bill submitted by referendum to the state November 19, and affecting particularly Japanese nationals by its clause prohibiting ownership of lands by aliens ineligible to citizenship.

Johnson said the bill proposed contained that a general anti-alien land ownership bill in California would not meet the aims of racial discrimination and that no steps are necessary to discriminate against Japanese and not for other nationalities. He maintained that action should be taken by Congress to make of the United States a Japan for a federal law to safeguard Japanese residents of this country, and declared it would be wise to wait for the moment.

At the same time Senator Johnson, conservative, Connecticut, opposed a substitute, which he said would only complicate the situation unnecessarily. The present law, he said, was strictly within the rights of California and "would not prevent any effort to do the same."

Famine Threatens to Wipe Out North China

Starving and freezing, this is a story of China is trying to keep alive by eating roots, grass and leaves.

There are millions more like them.

PEKING, China, Jan. 4.—No money, no clothes, no fire, no food

This sums up the condition of China now, with millions of people sometimes with nothing to break the twin-birth century's greatest barrenness.

Red Cross workers from Europe's Red Cross workers say war is merciful compared with the grim starvation of 38,000,000 Chinese.

Every day the death toll multiplies.

The Chinese government's efforts to save the starving are puny beside the efforts of the American.
